CUES

QZ²

Portable Video Inspection Camera

- Zoom
- Video Image Stabilization
- Digital Video and Audio
- ANSI Class 2 "Hi-Vis" Vest
- Light Weight
- Calibrated HID Lighting
- Single-Person Operation
- Meets or Exceeds IP68

Dual HID Lights

The QZ2 is a lightweight, portable, video inspection system that can be operated by one person! Perform swift inspections and surveys of pipelines, wet wells, manholes, sewer treatment plants, steam generators, tanks, vessels, and other areas that are difficult to reach. Accomplish safe-viewing in industrial or environmental areas with no man entry! The QZ2 is mounted on a lightweight carbon fiber adjustable telescopic pole that can extend up to 24' (an optional 34' pole is available). It features a 420:1 (35 optical/12 digital) zoom with automatic focus and self-contained waterproof lighting for enhanced detailed viewing of cracks, breaks, pipe separations, scale, and various defect conditions from hundreds of feet away! QZ2 can be used to locate lateral services or to identify a blockage at a manhole, access port, or other entry point without entering the line or structure. NEW! The QZ2 now includes (2) dual wattage (9.5w and 14w), high-intensity discharge lights to provide maximum lighting capabilities in all pipe conditions. The HID brightness has (2) user-selectable settings. The HID lights generate less heat, require lower power consumption, and provide brighter, more intense light!

"Hi-Vis" Safety and Battery Vest

Portable Video Inspection Camera

QZ²

EZ Flip Dual Color LCD Screens with audio

The "EZ Flip" design allows the operator to view the inspection using the 6.4" color LCD screen and flip down the DV recorder for easy touch use.

DV Recorder with touch screen controls

Quick and easy touch screen for digital video/audio recording

Audio with built-in microphone

The CUES exclusive audio capture has a built-in microphone with on/off switch. The operator's comments are recorded to the digital video/audio file.

Wireless operation (optional) with simultaneous viewing

This option allows the video image to be transmitted wireless to a remote video monitor while at the same time the operator is viewing the video on the dual LCD monitors.

Optional Equipment

- Hard-wired system
- Wireless system
- Choice of video options:
 - Digital video recorder with DV tapes
 - Dual video with touch screen
- Optional pole lengths
